

Aya Gare

St. Petersburg, FL · +1 (561) 870-8398 · ayagare@gmail.com · linkedin.com/in/aya-gare · ayagare.com

Senior Technical Product Manager specializing in data platforms, CDPs, identity resolution, event-driven activation across the full behavioral data lifecycle, and privacy-compliant personalization at scale, with a track record of 0 to 1 launches and platform growth to IPO readiness (Klaviyo, \$9B). Brings rare depth across the full stack: 9+ years spanning enterprise SaaS, AI/ML, medical devices, and aerospace, grounded in pre-AI CS and engineering fundamentals. Known for driving alignment across engineering, design, and executive stakeholders in high-ambiguity environments.

EXPERTISE

TECHNICAL

Python · Java · SQL · HTML/CSS · JavaScript · REST APIs & SDKs · Amplitude · Mixpanel · Jira · Figma · Miro · Canva

AI / ML TOOLS

Cursor · ChatGPT · Claude · Gemini · Lovable · Perplexity · Midjourney · Replit · v0 · n8n · Make · Zapier · Granola

PRODUCT

Agile/Scrum · OKRs · Product Vision · Roadmapping · Product Discovery · User Research · GTM · Stakeholder Management

DATA & PLATFORMS

CDP · Data Pipelines · Identity Resolution · Recommendation Models · Personalization Engines · Event Architecture · DCO

COMPLIANCE & PRIVACY

GDPR · CCPA · CAN-SPAM · CASL · SPF/DKIM/DMARC · SOC 2 · ISO 27001 · HIPAA · FDA/ISO/EU MDR · DO-178B

SOFT SKILLS

Cross-functional Leadership · User Empathy · EQ · Prioritization · Influence Without Authority · Adaptability · Systems Thinking

EXPERIENCE

Founding Senior Product Manager · Tie

10/2025 – 01/2026 · Remote

- Brought in as founding PM to define ICP, North Star metrics, and GTM strategy for a 0 to 1 multi-tenant SaaS AI/ML data analytics platform; re-engineered the PDE process to accelerate product discovery and MVP delivery.
- Authored high-fidelity PRDs for real-time de-anonymization and identity graph filtering, including detailed API specifications for enterprise integrations, enabling event-driven lifecycle activation within privacy-compliant (GDPR/CCPA) shopper profile ecosystems.
- Established structured VoC mechanisms and drove roadmap prioritization and stakeholder alignment across product, design, and engineering pods.
- Led early customer discovery to validate ICP, uncover market gaps, and prioritize MVP scope; translated insights into sprint-ready requirements accelerating engineering alignment.

Founder & Product Lead · PortaPerch

04/2025 – 10/2025 · Boston, MA

- Founded and led a hardware/software venture; conducted 40+ user research interviews validating PMF and uncovering 50%+ willingness-to-pay at \$100–\$400, confirming monetization potential.
- Drove 0 to 1 product strategy and prototyping using SolidWorks CAD and OpenAI-powered logic for sensor-driven behavioral triggers and personalization pipelines.
- Developed ML-powered data pipelines with probabilistic matching for sensor-driven personalization; built Looker-based investor materials emphasizing defensible IP, behavioral data loops, and projected ROI.

Technical Product Manager · StackAdapt

01/2024 – 04/2025 · Remote

- Launched 0 to 1 email marketing, CDP, and personalization vertical, scaled to 20K+ brands and 1.5M+ campaigns/year, generating multi-million-dollar ARR within the first year across 5 cross-functional pods.
- Built CRM-triggered flows, recommendation models, DCO pipelines, and a personalized template editor with merge tags; drove a 9.5% annual revenue increase for adopting brands.
- Implemented deliverability infrastructure (SPF, DKIM, DMARC) achieving 95% inbox placement and <2% bounce rate; migrated 200+ clients with GDPR/CCPA/CAN-SPAM/CASL-compliant footers.
- Accelerated GA by 3 months through executive alignment; created launch playbooks enabling 50+ sales and CS reps to drive lighthouse adoption.

Technical Product Manager · Klaviyo

08/2022 – 01/2024 · Boston, MA

- Owned platform strategy for high-scale email delivery; enabled ingestion of 0.5+ petabytes and 250B+ segmentation updates with low-latency rendering for real-time personalization.
- Shipped Pre-rendering and Smart Recipient Batching, increased throughput to 420M sends/hour, delivered +10% open rate lift, and maintained 100% uptime through 800M+ peak sends.
- Released Campaign Scheduling API powering 311B+ annual sends; introduced data observability tooling improving Customer Success NPS and CSAT with real-time delivery and segmentation insights.
- Prioritized reliability features (Campaign Journey Notifications, delivery anomaly alerts) safeguarding customer trust at scale; helped position Klaviyo for IPO at \$903M ARR and a \$9B valuation.

Software Engineer I & II · Medtronic

10/2019 – 04/2022 · Boston, MA

- Led 0 to 1 commercial launch of Hugo™ RAS robotic surgery platform as Scrum Master for distributed QA and software teams; contributed to year-over-year doubling of procedure volume.
- Built Simulink-based fault injection tools achieving 98.5% trial success rate; developed Python telemetry dashboards enabling predictive alerts and anomaly detection in high-load clinical scenarios.

Quality Engineer II · Medtronic

10/2018 – 10/2019 · Danvers, MA

- Led cleanroom yield optimization using DMAIC/RCA, improving yield by \$8K/month; ensured FDA, ISO, and EU MDR compliance across all manufacturing processes.

Validation Engineer · Newell Brands

12/2017 – 08/2018 · Boca Raton, FL

- Validated CAD/FEA designs and physical testing (ASTM, ISO, UL) across global product lines to support safety certification and go-to-market approval.

Control Systems Engineer · Pratt & Whitney (Belcan)

03/2017 – 12/2017 · Palm Beach, FL

- Developed Simulink-based closed-loop engine simulations and test logic for DO-178B flight control software certification.

Structural Analysis Engineer · General Electric (Belcan)

10/2016 – 04/2017 · Palm Beach, FL

- Modeled turbine blade fatigue and vibration using ANSYS/NX; automated CAD validation and refined component tolerances across high-stakes energy systems.

EDUCATION

MS Coursework in Computer Science · Northeastern University · Boston, MA

BS in Mechanical Engineering, Tau Beta Pi Honors · Florida Atlantic University · Boca Raton, FL
